DETAILED ACTION

Claim Objections

Claims 1, 9 and 14 are objected to because of the following informalities:

In regard to claim 1, line 16, "(15" should be "(15");

In regard to claim 9, line 1, "Adevice" should be "A device"; and

In regard to claim 14, line 2, "an" should be "a". Appropriate correction is required.

Claim 13 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites the limitation "the pipe" (line 5), "the paint container" (line 6), "the third terminal" (line 16), "the memory" (line 17), "the fourth terminal" (line 17) and "the

fifth terminal" (line 18). There is insufficient antecedent basis for this limitation in the claim.

Regarding claims 5-7 and 12, the phrases "such as" renders the claim indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

Regarding claims 5 and 12, the phrases "etc." and "and the like" render the claim(s) indefinite because the claim(s) include(s) elements not actually disclosed (those encompassed by "etc." and "and the like"), thereby rendering the scope of the claim(s) unascertainable. See MPEP § 2173.05(d).

Allowable Subject Matter

Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Claims 2-15 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter: None of the prior art or record, alone or in combination, teaches a device for instant manufacture of customized paint having a variable frequency drive, a weighing platform, a central processing unit, the output of weighing platform being connected to the central processing unit, one terminal of the central processing unit being connected

to a LCD, a second terminal of the central processing unit being connected to a smart card, a third terminal of the central processing unit interacting with the memory, a fourth terminal of the central processing unit being connected to the input of a digital input/output device, a fifth terminal of the central processing unit being connected to membrane keyboard for human interface, the output of the digital input/output device being connected to a relay board, and the output of the relay board being connected to the variable frequency drive and to the valves, as claimed.
